PAROMAT Carrera

Transportation module TM 800/1600

Enables the linear transportation of transport plates as well as buffering along the whole length.

Lengths 800/1600mm
Width standard 100mm

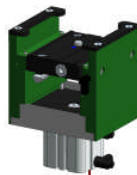

Corner module DM 180

Returning of the transport plate by 180 degrees

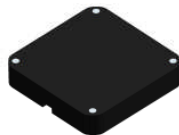

Positioning unit PH 03

Isolates and stops transport plates
Positioning accuracy +/- 0.5mm

Positioning unit PA 02

Isolates and indexes transport plates
Positioning accuracy +/- 0.02mm

Transport plate TP 100

Mounting plate for assembly nests and fixtures.
Allows circulation of many transport plates in the same transportation circuit
Prepared for RFID's
